

ECONOCOM CONTINUES ON ITS GROWTH TREND WITH REVENUE FOR THE FIRST NINE MONTHS UP 9%

Revenue for the nine months through September 30, 2009

Over the first nine months of the year, **group consolidated revenue** came in at **€556 million**, **up 9%** compared with the €508 million reported in the same year-ago period.

This positive performance is due in particular to the success of Econocom's "bundled" offerings (innovative, one-stop, cross-activity solutions), which are the main axis of Horizon 2012, the 5-year strategic plan. Econocom's ability to provide offerings in line with market needs resulted in the signing of several major long-term contracts in the third quarter.

Outlook

For 2009 as a whole, Econocom's Group Management anticipates growth in both revenue and recurring operating profit.

Econocom is a European services company specialized in the management of IT and telecom resources for businesses. The service offerings include consulting, IT products and financing solutions, and managed services (outsourcing and maintenance).

The Econocom Group share is part of the Next Economy segment on the Eurolist market (compartment B) of Euronext Brussels.
