PRESS RELEASE

**ECONOCOM ELECTED BEST OUTSOURCING PARTNER
BY COMPANIES IN BELGIUM AND LUXEMBOURG
FOR 2nd CONSECUTIVE YEAR**

According to the latest research conducted* by EquaTerra on the subject of IT outsourcing in Belux, Econocom, the European services group that specializes in managing IT and telecommunication infrastructures, has been chosen as best partner by companies in Belgium and Luxembourg, with a record overall satisfaction rate of 84%. It should be noted that Econocom, which is amongst the best IT services providers for the third consecutive year, was also No. 1 last year with a satisfaction rate of 81%.

In addition to being No. 1 in terms of general satisfaction, Econocom is also ranked No. 1 for its conformity with market prices (84%), its operational involvement in customer relationship management (83%), its flexibility (80%) and its ability to take risk management into account (78%).

Econocom is also highly ranked in relation to the three other criteria, being in second or third place for its ability to respond to the level of service expected from its clients, to innovate and to provide long-term strategic support.

"These excellent results demonstrate the close relationship we maintain with our clients throughout the year. Such closeness enables us to be in tune with their needs and adapt our offers so that we can adequately meet their requirements. For Econocom, the concept of responsibility is a fundamental value, most clearly evident in our continuous commitment to our clients," says Chantal De Vrieze, Econocom's Country Manager Belux.

Didier Bertho, General Manager of Econocom Managed Services activities, adds: *"One of the significant assets of the group is the complementary nature of its knowledge and its skills, which became evident in early 2008 with the launch of our bundled offerings. These innovative offerings are aimed at controlling and optimizing the full lifecycle of our clients' IT and telecommunications infrastructures thanks, notably, to a unit price invoicing system. Based on service to the client and substantial added value, these offerings are becoming increasingly successful."*
