## Enterprise mobility: Econocom joins the Android Enterprise Recommended for managed service provider program

Econocom has joined the Android Enterprise Recommended program for managed service providers. The Google™-led program is aimed at giving customers more confidence in deploying Android™ and ensuring their enterprise mobility deployment is as consistent and as current as possible.

This program enables users to benefit from the full spectrum of Android products while meeting enterprises' rigorous standards.

Already a Google partner for digital workplace (G Suite and Chrome OS) and the cloud (Google Cloud Platform), Econocom is now a validated Android Enterprise Recommended for Managed Service Providers partner for Europe. This validation will allow the group to strengthen its enterprise mobility expertise.

As a validated MSP partner, Econocom:

- Offers technical expertise via a dedicated team specially trained by Google in Android implementation and support.
- Provides experience with Android Enterprise Recommended enterprise mobility management systems.
- Works closely with Google's teams on planning and support.
- Trains its dedicated teams on the latest Android features and Google-recommended best practices.

*"After becoming France's first accredited Android zero-touch enrolment integrators, we are thrilled with this new validation, which will consolidate the group's position as a leading enterprise mobility player. Our customers will now have the assurance of quality of our expertise in one of the most widely-used mobile platforms in the world,"* says [Benjamin Dreux](#), Econocom Head of Workplace Solutions.

*"We're pleased to recognize Econocom as an Android Enterprise Recommended managed service provider,"* said [David Still](#), Managing Director of Android Enterprise Business. *"MSPs in the program demonstrate proven expertise in implementing and supporting Android deployments. We're excited that Econocom is stepping up to deliver this expertise on behalf of customers."*
